

HACK-4-CROWN

Forging The Empire of Tomorrow

TRACKS

TRACK 01

OPEN INNOVATION

This theme welcomes projects from any domain or discipline, encouraging participants to explore ideas freely and develop solutions that address real-world needs — an open category designed to inspire creativity and cross-domain thinking without limits.

TRACK 02

Tech4Health

Reimagine healthcare through technology-driven solutions. Focus on accessibility, affordability, and efficiency in physical, mental, and preventive healthcare. From AI diagnostics, telemedicine, wearables, fitness, and nutrition to digital health platforms—make care smarter. Empower healthier communities with innovative technology.

TRACK 03

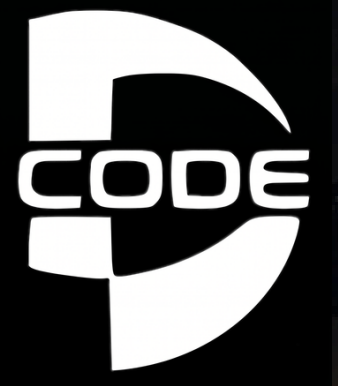

Retail / E-Commerce / FinTech

Transform how people shop, pay, and experience digital commerce. Build secure, seamless, and personalized financial and retail solutions. Explore AI, blockchain, and data-driven insights for smarter transactions. Enhance user trust, speed, and convenience.

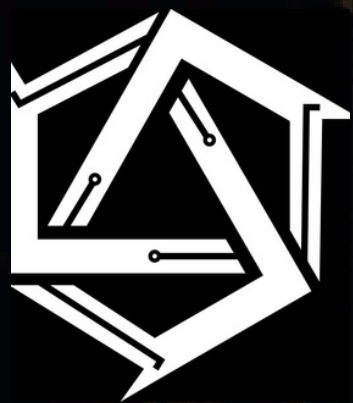

TRACK 04

SOCIAL IMPACT

Create solutions that drive meaningful change in society. Address challenges in education, environment, inclusivity, social awareness, accessibility, public services, disaster response, and more. Empower communities, support NGOs and volunteer platforms, and focus on sustainability and long-term community benefit. Use technology as a force for good.

THANK YOU!
